Parent/Guardian Responsibilities and Permission

I am authorizing the assignment of a mobile device to my child. I understand that the device is to be used as a tool for learning and that my child will comply with the BISD Responsible Use Guidelines. I understand the three-layer approach when my child is using the device. I will help ensure the safe and timely return of the device within the loan period. I also understand that I am financially responsible for any willful, malicious, or accidental damage to the device. I understand that my child may lose future privileges of the device if it is either damaged or not returned in a timely manner.

Brownsville ISD is excited to provide the opportunity for our students to take home a digital device for learning. Please understand that prior to taking the learning device home, students will be instructed and evaluated on proper use and care. Students must follow the Brownsville ISD Responsible Use Guidelines. These guidelines are listed below, and found in your BISSD Student/Parent Code of Conduct Handbook.

Student Code of Conduct

- 1. Electronic files sent, received, viewed or stored anywhere in the computer system are available for review by any authorized Brownsville ISD staff for any purpose.**
- 2. Modifying or changing device settings and /or internal or external configurations without appropriate permission is prohibited.**
- 3. Personal information such as, but not limited to, last name, home address, phone numbers, email addresses, or birthdates must not be placed on device or shared online.**
- 4. Using obscene, threatening or disrespectful language in any electronic communication tool is prohibited.**
- 5. Disclaimer:** While BISSD uses technology protection measures to limit access to material considered harmful or inappropriate to students, it may not be possible for the District to absolutely prevent such access. Despite our best efforts and beyond the limits of filtering technology, a student may run across some material that is objectionable. BISSD has a 3-layer approach when students are using the Internet. The device is automatically routed through BISSD's filter for appropriate content that provides the first layer. The second layer of monitoring is through Sprint's security platform, and the third layer is where the student should use their digital responsibility skills when using a device.

Responsible Use and Care

- 1. The device is to be treated as a valuable object. It should not be thrown, purposely dropped, or abused. It will never be placed on the roof or hood of a car, on the side walk or street, or imperiled in any way that may cause it to be crushed or thrown to the ground.**
- 2. The device will never be left unattended on the bus, in the cafeteria, in the gym or any other public place.**
- 3. The device will not be used in or near proximity of water, household chemicals, or other liquids that could damage its electronic components.**
- 4. The device will be protected from the environment to prevent rain, excessive heat, and/or cold.**
- 5. Pencils, pens tips, and other pointed objects will never be used on the screen.**
- 6. The device will be kept away from siblings and pets at all times.**
- 7. Parents and students agree to return the device and all components to the school in the same condition the device was issued to the student.**

BISSD does not discriminate on the basis of race, color, national origin, sex, religion, age disability or genetic information in employment or provision of services, programs, or activities.
